CENTERTON BRIDGE TO CLOSE MARCH 10th

Historic Centerton Bridge over the Rancocas Creek North Branch that connects Willingboro and Westampton to Mount Laurel will close for inspection and repairs Wednesday, March 10 from 8 a.m.-5 p.m. The bridge undergoes inspection and routine maintenance four times annually. In the event of inclement weather on Wednesday, the maintenance will be performed Thursday, March 11th.

Traffic normally accessing the bridge along Centerton Road (County Route 635) will be detoured to Creek Road (CR636), I-295 and Beverly-Rancocas Road (CR626). Centerton Road will be open to local traffic only on both sides of the bridge.

The center swing-span bridge was built 1903 by NJ Bridge Co. of Manasquan NJ. It is manually operated and in the National Register of Historic Places.
